Education

Madan Mohan Malaviya University of Technology, Gorakhpur Sept 2024 – May 2028 B.Tech. in
Computer Science and Engineering **CGPA: 7.76/10.0**

Projects AI-Based Internship Recommendation System

- Developed an AI-powered web application that recommends internships to users based on skills, interests, and profile data.
- Built frontend and backend integration using APIs and database management.
- Used recommendation logic/AI models to match users with relevant internship opportunities.

Number Guessing Game

- Built an interactive number guessing game using C++ with conditional statements and loops.
- Added score tracking and multiple attempts logic for better user experience.
- Strengthened problem-solving and logical thinking skills.

LocalKart – Digital Marketplace Platform

- Developed a full-stack e-commerce platform using **React.js, Node.js, Express.js, and MongoDB**.
- Built separate **Admin** and **Customer** dashboards with role-based access and responsive UI.
- Integrated RESTful APIs to connect the frontend with the backend and MongoDB Atlas.

Portfolio Website

- Designed a personal portfolio website showcasing projects, skills, and contact information.
- Developed responsive UI for both desktop and mobile devices using HTML, CSS, and JavaScript.
- Improved web design and frontend development skills.

Competitions Achievements

🏆 Selected Participant in (SIH).

🏆 Participated in different technical and non-technical college events.

🏆 Actively involved in coding competitions and problem-solving activities.

🏆 Participated in hackathons, workshops, and team-based innovation events.

Skills Summary

- **Languages:** C++, JavaScript, SQL, HTML, CSS
- **Tools:** React.js, Node.js, Express.js
- **Technical Skills:** Data Structures and Algorithms
- **Curriculum:** DBMS, OOPS, Git, GitHub
